

Features:

1. Vacuum lid can be lowered and raised vertically.
2. Conveyor belt is controlled by electromagnet braking motor to ensure accurate positioning.
3. The key parts are made of stainless steel to improve antiseptic property, such as chain of conveyor belt, underplate of heating bar, etc,
4. Featured by stable performance, low noise, high vacuum degree.

Parameters:

	DZ-980AC
Voltage (V/Hz)	380/50 or 220/60 (3Phase)
Power (W)	3000
Ultimate Vacuum Pressure (Kpa)	1
Sealing Length (mm)	980
Sealing Width (mm)	8
Capacity (times/min)	3-5
Chamber Dimension (L×W×H) (mm)	1080×400×60
External Dimension (L×W×H) (mm)	1750×1360×1420
Net Weight (Kg)	500
