FRMC-1010III

Description:

FRM-1010 series solid-ink coding continuous band sealer can seal any heat-sealable materials. Solid-ink coding device is adopted to print the colored label on bag while sealing. The printing wheel equipped to the machine can be used for both R arrange and T arrange of types. For types in R arrange, the machine can print two lines in font size two (18PT) or three lines in font size five (10.5PT). If necessary, counting device can be equipped as well. Apart from functions of sealing and printing, model FRMC-1010III has function of air suction.

Features:

1. Adopt novel design idea and advanced manufacturing technology, which makes structure of machine more reasonable and perfect.
2. Constant temperature control and temperature is adjustable.
3. Stepless speed regulation.
4. Solid-ink coding is characterized by high definition, various selectable colors, instant dry while printing, strong adhesive property.

Application:

FRM-1010 series solid-ink coding continuous band sealer is suitable for sealing small packages.
