

KZA-8060

KZW-8060

KZ-G8060

Description:

KZA series high-table automatic strapping machine is suitable for general objects. The tabletop of KZG series is equipped with rollers to ensure strapping can be achieved with less force. KZW high table automatic strapping machine can be used in production line of which objects differ in size and irregular in shape, and it can achieve unmanned strapping together with power conveyor. Power belt tabletop and access transmission mechanism are adopted, with easy maintenance.

Features:

1. Adopt film, durable, efficient KZ mechanism as main body.
2. Adopt human-machine interface, PLC and fully digital manipulation to ensure easy size changeover and stable running.
3. Due to special design of strap feeding and withdrawal track, more straps are applicable and packing cost is lowered greatly
4. Oil-free maintenance, firm strapping, high speed and long use life.

Application:

KZA series high-table automatic strapping machine is widely used to strap various packages (except annulations) in all kinds of fields. It can be single-unit operation or equipped onto the production line.

Parameters:

	KZA-8060	KZG-8060	KZW-8060
Voltage (V/Hz)	AC 220/50		
Power (W)	850		1050
Max. Strapping Size (W×H) (mm)	800×600 (Standard type)		
Min. Strapping Size (W×H) (mm)	80×50		250×50
Strapping Speed (sec/pass)	2.15		
Strapping Force (N)	25-700 (adjustable)		
Plastic Strap Used (mm)	PP or PE strap. 9-15mm in width, 0.5-1.1mm in thickness		
Height of Table (mm)	830		
External Dimensions (L×W×H)(mm)	1420×650×1565		
Net Weight(kg)	235	248	260
